

BEVERAGES

APRIL 2023

Chart 1: Beverage Production Composite Index, Percentage Change

- The **Composite Production Index** for beverages consisting of alcoholic and non-alcoholic beverages for April 2023 recorded a decline of 12.4 percent monthly compared to an increase of 39.6 percent recorded in March 2023. However, the index recorded an increase of 14.7 percent on an annual basis.
- The decline in the monthly index emanated from a drop in the production of non-alcoholic beverages.
- A total of 282 744 hectolitres of beverage was produced in April 2023, a decrease when compared to 322 616 hectolitres recorded in March 2023 and an increase when compared to 246 476 hectolitres recorded in April 2022.

Chart 2: Alcoholic Beverage Production Index, Percentage Change

- The **Alcoholic Beverage Production Index** recorded a monthly increase of 0.7 percent in April 2023 compared to an increase of 13.4 percent recorded a month earlier. Similarly, the index increased by 4.2 percent on an annual basis (Chart 2).
- The production of alcoholic beverages in April 2023 stood at 158 544 hectolitres compared to 157 422 hectolitres and 152 180 hectolitres that was registered in March 2023 and the corresponding period of 2022, respectively.

Chart 3: Non-Alcoholic Beverage Production Index, Percentage Change

- The **Non-Alcoholic Beverage Production Index** registered a monthly decline of 24.8 percent in April 2023, compared to an increase of 78.9 percent that was registered in the preceding month. However, the index recorded an increase of 31.7 percent year-on-year (Chart 3).
- The production of non-alcoholic beverages in April 2023 amounted to 124 200 hectolitres compared to 165 194 hectolitres and 94 296 hectolitres recorded in March 2023 and April 2022, respectively.

Chart 4: Beverage Export Composite Index, Percentage Change¹

- The **Beverage Export Composite Index** for April 2023 increased by 65.9 percent monthly compared to a decline of 21.5 percent recorded in the preceding month. Moreover, the index recorded an increase of 78.0 percent on an annual basis.
- The monthly increase emanated from a rise in the export of alcoholic beverages.
- A total of 38 357 hectolitres of beverages were exported during the month of April 2023 compared to 23 124 hectolitres and 21 554 hectolitres that were exported in March 2023 and the corresponding month of 2022, respectively.
- Namibia exported 38 022 hectolitres of alcoholic beverages in April 2023, of which beer accounted for a share of 95.9 percent (36 452 hectolitres). Whereas the export of non-alcoholic beverages amounted to 335 hectolitres for the same period.

¹ Chart 4 is limited for better readability.

Chart 5: Export of Beverages by Partner Country, Percentage Share

- South Africa (96.1%) was the top export destination for beverages, followed by Kenya (1.1%), Tanzania (1.0%) and Botswana with a share of 0.8 percent (Chart 5).

Chart 6: Beverage Import Composite Index, Percentage Change

- The **Beverage Import Composite Index** for April 2023 registered a monthly decline of 12.7 percent compared to a decline of 7.1 percent registered a month earlier. Similarly, the index registered a decline of 18.7 percent on a yearly basis.
- The monthly decline mainly resulted from import of non-alcoholic beverages. The import of alcoholic beverages also recorded a decline of 0.8 percent during the month under review.
- Namibia imported a total of 79 864 hectolitres of beverages during the month of April 2023, as opposed to the 91 506 hectolitres recorded in March 2023 and 98 235 hectolitres registered in the corresponding month of 2022.

- South Africa was the main source of import for beverages during April 2023 accounting for 96.5 percent share, followed by Austria (0.8%), United Kingdom (0.7%) and Portugal (0.5%).

Table 1: Beverages Production Index

Methodology:	Graphical and tabular analysis
Data Sources:	The data sources for volume in Hectolitres of beverage are sourced from Namibia Breweries, Coca-Cola Namibia Bottling Company, ABInBev Namibia (SAB Miller Namibia at Okahandja) and Trade data from NamRa. This is data on the production of alcoholic beverages (beer production) and non-alcoholic beverages (soft drinks). Alcoholic beverage production is the total of alcoholic beverages produced by Namibia Breweries and ABInBev Namibia. Whereas non-alcoholic beverage production data was a sum of soft drinks produced by Namibia Breweries and Namibia Beverages. The unit of measure is Hectolitre (hl).
Base year:	The beverages sectoral report is harmonised with the quarterly and annual National Accounts base year 2015.
Index calculations:	The index of beverage production was weighted using the volume data of 2015. The index is then calculated as a ratio of the volume of a specific component in a specific month to the total volume of that component in 2015.
Conversion:	1 basis point = 0.01 percent
Revision:	Data was revised based on the new dataset received from the data sources.
