

Namibia Consumer Price Index Bulletin - **NCPI**

December 2023

Mission Statement

“Leveraging on partnerships and innovative technologies, to produce and disseminate relevant, quality, timely statistics and spatial data that are fit-for-purpose.”

Vision Statement

“To be a high performing and sustainable institution in quality statistics and spatial data delivery for research, planning, and decision-making.”

Core Values

Integrity
Excellent Performance
Accuracy
Teamwork
Accountability
Transparency

PREFACE

This report examines the monthly inflation rate performance in Namibia as measured by the Namibia Consumer Price Index (NCPI). The inflation rate measures the change in the Consumer Price Index (CPI) for the month under review compared to the previous month (month-on-month changes) as well as to the corresponding month in the previous year (year-on-year changes). The inflation rate is vital for purposes of economic policymaking, especially the conduct of monetary policy and to consumers in general. The Consumer Price Index is published about 15 days after the end of the reference month to which it relates.

In December 2023, the annual inflation rate stood at 5.3 percent compared to 6.9 percent recorded in December 2022. On a monthly basis, the inflation rate for December 2023 registered a deflation of 0.1 percent compared 0.3 percent recorded in the preceding month.

The Zonal inflation rates for the month of December 2023 revealed that, **Zone 1** (Kavango East, Kavango West, Kunene, Ohangwena, Omusati, Oshana, Oshikoto, Otjozondjupa, and Zambezi regions) recorded the highest annual inflation rate of 5.9 percent, followed by **Zone 2** (Khomas region) which recorded an inflation rate of 5.0 percent and **Zone 3** (//Kharas, Erongo, Hardap, Omaheke regions) annual inflation rate was 4.9 percent.

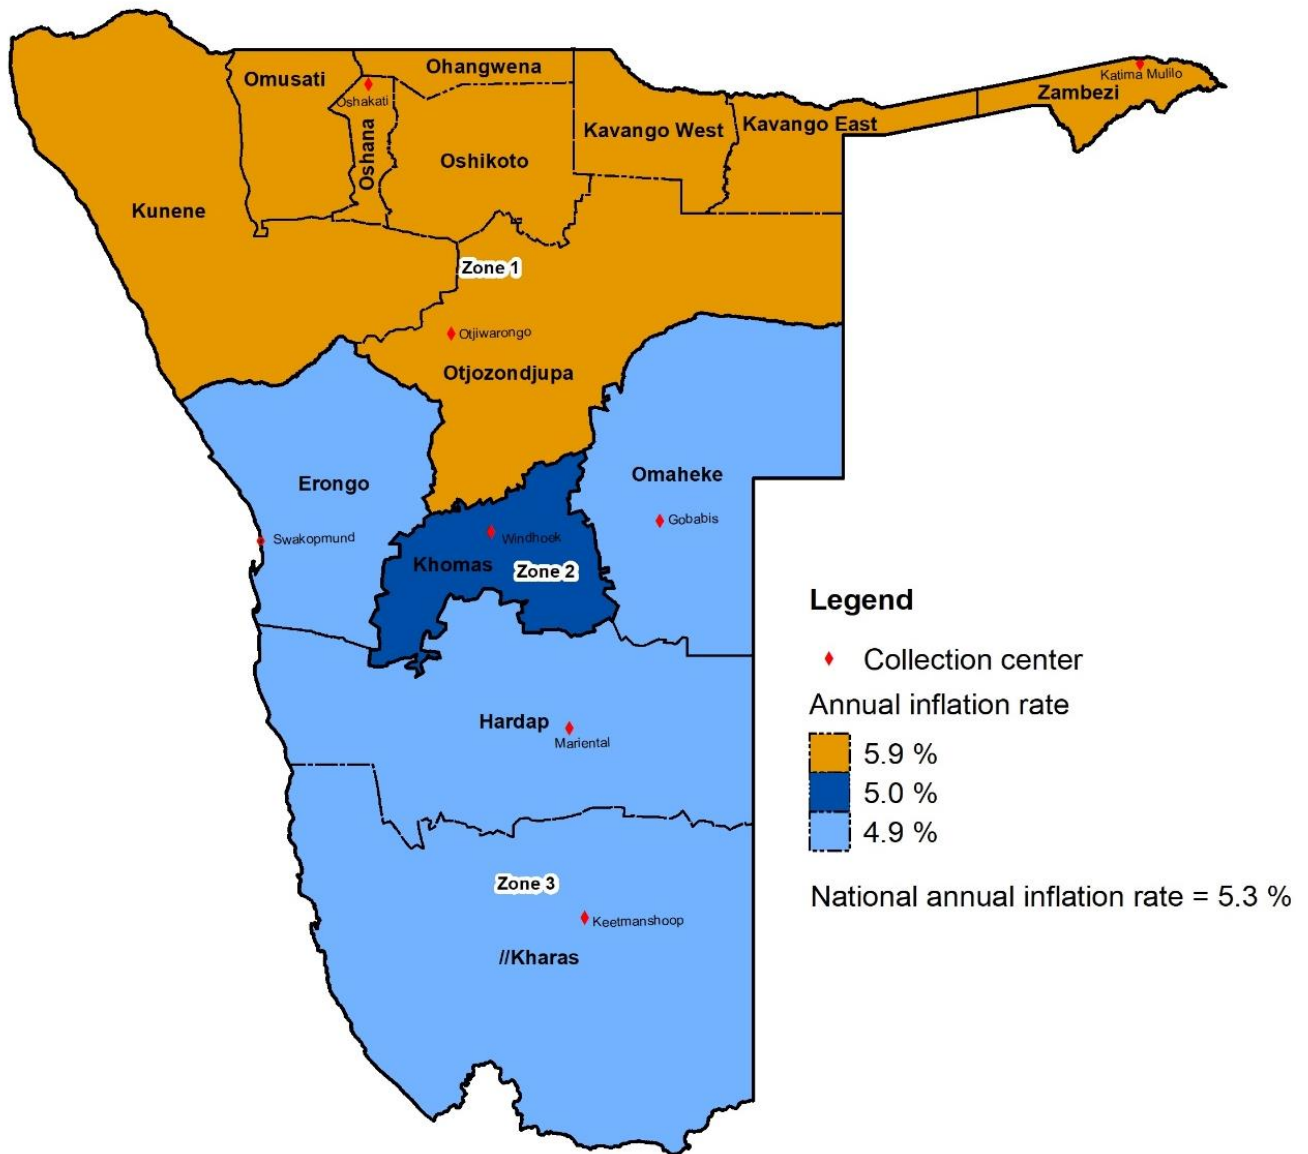

Analysis of the average retail prices of selected products for the month of December 2023 revealed that consumers in **Zone 2** paid the highest price for **Pure Sunflower oil (750 ml)** at N\$37.63 followed by **Zone 1** at N\$31.11 while consumers in **Zone 3** paid the least price of N\$30.12. For **Honey (500 g)** consumers in Zone 2 paid the highest price of N\$107.41 followed by **Zone 3** at N\$90.63, while **Zone 1** paid the least price of N\$82.75.

I would like to extend my gratitude and appreciation to all stakeholders who assisted in the production of this bulletin. Further, I would like to urge our readers and users of this bulletin to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin at info@nsa.org.na

ALEX SHIMUAFENI
STATISTICIAN-GENERAL & CEO

Annual inflation stood at 5.3 percent in December 2023

NCPI Zonal Map: Key highlights

- o The annual inflation rate stood at **5.3 percent**.
- o The annual inflation rate for Goods was estimated at **6.8 percent**.
- o The annual inflation rate for Services stood at **3.1 percent**.
- o The average annual inflation rate for the period December 2022 to December 2023 stood at **6.0 percent**.
- o The twelve-month average annual inflation rate from January 2023 to December 2023 was estimated at **5.9 percent**.

Box 1: Main division contributions to the NCPI annual percentage change

Major divisions contribution to the annual inflation rate

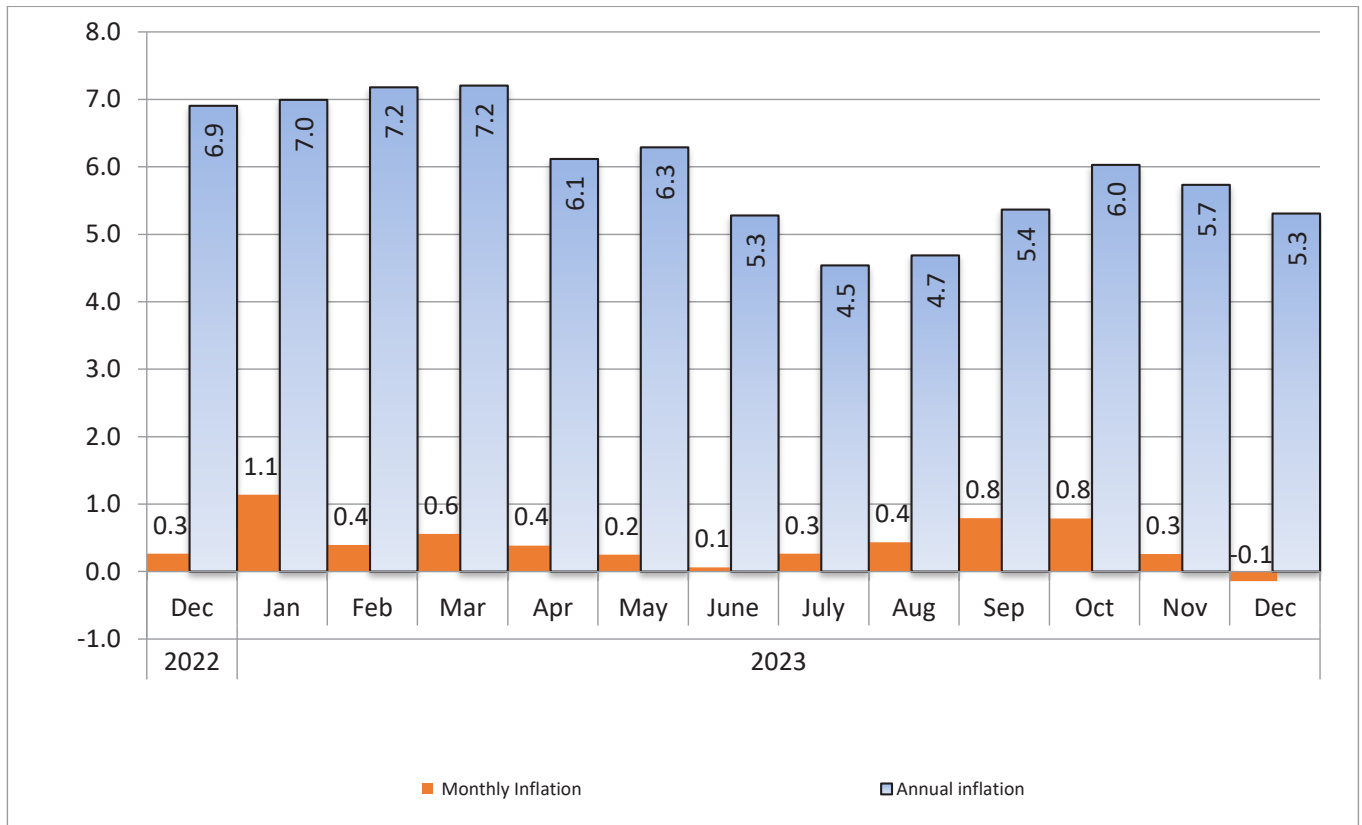

The major contributors to the annual inflation rate of 5.3 percent in December 2023 were Food and non-alcoholic beverages (1.4 percentage points); Alcoholic beverages and tobacco contributed (1.1 percentage points); Housing, water, electricity, gas, and other fuels (0.8 percentage points) and Transport (0.6 percentage points).

Chart 1: NCPI groups contribution to annual inflation rate (%), December 2023

On a monthly basis, price levels in Namibia decreased by 0.1 percent during the period under review compared to 0.3 percent recorded during the previous month. For the period of December 2022 to December 2023, the lowest rate of -0.1 percent was witnessed in the month of December 2023.

Chart 2: Monthly and annual percentage change (December 2022 - December 2023)

Annual inflation rate by All Divisions

The highest change in the annual inflation rate were mainly witnessed in the categories of Recreation and culture (10.0%); Alcoholic beverages and tobacco (8.4%); Food and non-alcoholic beverages (7.4%); Hotels, cafés and restaurants (6.5%); Furnishings, household equipment and routine maintenance of the house (5.1%); Miscellaneous goods and services (4.9%) and Transport (4.0%).

Chart 3: Annual percentage change by division, December 2023

Major divisions annual inflation rates

Housing, water, electricity, gas and other fuels

The annual inflation rate for Housing, water, electricity, gas, and other fuels component which accounts for 28.4 percent of the consumer basket, registered an increase of 3.4 percent during December 2023 compared to 2.1 percent witnessed in December 2022.

On a monthly basis, the inflation rate stood at 0.0 percent, unchanged compared to the previous month.

Chart 4: Annual inflation rates (%) for Housing, water, electricity, gas, and other fuels (December 2022-December 2023)

The increase in the price levels of this category was reflected in the subgroups of Electricity, gas and other fuels (from 5.4% to 9.5%); Water supply, sewerage service and refuse collection (from 2.5% to 3.2%) and Rental payments for dwelling (both owners and renters) (from 1.4% to 2.1%).

Chart 5: Annual inflation rate (%) for Housing, water, electricity, gas, and other fuels for December 2023

Food and non-alcoholic beverages

Food and non-alcoholic beverages which accounts for 16.5 percent of the NCPI basket, registered annual inflation rate of 7.4 percent during December 2023, compared to 11.8 percent registered during the corresponding period of 2022.

On a monthly basis, prices for Food and non-alcoholic beverages increased by 0.5 percent in December 2023 unchanged from the previous month.

Chart 6: Annual inflation rates (%) for Food and non-alcoholic beverages and selected food sub-categories (December 2022 – December 2023)

The Food sub-category accounts for 14.8 percent of the consumer basket in the NCPI. Within the Food sub-component, Bread, and cereals accounts for the highest weight of Food items that consumers purchase, having a weight of (4.8%) followed by Meat (3.5%); Sugar, jam, honey, syrups, chocolate, and confectionery (1.4%); Vegetables and Milk, cheese, and eggs (1.2%) each.

On average, **Oils and fats** prices declined by 2.2 percent in December 2023 compared to the growth of 20.8 percent recorded a year ago. The decrease in the annual inflation rate for this subcategory was mainly observed in Cooking oil (from 28.1% to -7.5%); Cooking fats (from 14.2% to -3.0%) and Margarine and margarine spreads (from 9.8% to 3.6%).

Bread and cereals prices increased by 1.9 percent in December 2023, a slow increase when compared to 18.2 percent witnessed during the same month in the previous year. The slow growth in the annual inflation rate of this subcategory was mainly observed in the price levels of Maize, meal/grain (from 32.5% to -6.2%); Bread, cake flour (from 25.3% to -1.8%); Mealie rice/malt (from 15.3% to 4.8%); and Bread (from 16.5% to 7.1%).

Food and non-alcoholic beverages

On average prices for **Fruits** rose by 14.4 percent during December 2023 compared to 20.5 percent recorded during the same period a year earlier. The slow increase was mainly observed in the price levels Avocados (from 63.1% to 3.0%); Watermelons (from 13.7% to 5.4%) and Dried fruits (from 11.1% to 8.1%).

The **Sugar, jam, honey, syrups, chocolate and confectionery** subcomponent recorded an annual inflation rate of 8.6 percent during December 2023 compared to 11.7 percent registered during the same period a year earlier. The slow increase was reflected in the price levels of Chocolate (from 15.7% to 3.9%) and Sugar (from 12.2% to 8.6%).

Chart 7: Annual inflation rates (%) for the main subcategories of Food and non-alcoholic beverages (December 2023)

Transport

The annual inflation rate for the Transport category, which accounts for 14.3 percent of the consumer basket stood at 4.0 percent during December 2023 compared to 14.8 percent recorded in December 2022. The slow increase in the annual inflation rate for this component was reflected mainly in the subcomponent of Operation of personal transport equipment (from 22.6% to 2.8%) and Public transportation services (from 1.4% to 0.4%).

On a monthly basis, Transport group recorded a deflation rate of 2.0 percent in December 2023 compared to an increase of 0.6 percent recorded during the previous month.

Chart 8: Annual inflation rates (%) for Transport (December 2022 - December 2023)

Annual inflation rate for Operation of personal transport equipment recorded an increase of 2.8 percent during December 2023 compared to an increase of 22.6 percent recorded in December 2022. The slow increase was mainly witnessed in the subcategories of Petrol/Diesel (from 36.2% to 1.2%).

Annual inflation rate for Public transportation services stood at 0.4 percent during December 2023, a slow increase when compared to 1.4 percent registered during the same period of the preceding year. The slowdown in the inflation rate of this subcomponent emanated mainly from Furniture removal & transportation (from 26.3% to 2.3%) and Airport transportation (from 17.1% to 2.0%).

Purchase of vehicles registered annual inflation rate of 10.1 percent during December 2023 compared to 4.5 percent recorded in December 2022. The increase in the annual inflation rate for this category was mainly observed in Motor cars (from 4.6% to 10.5%).

Alcoholic beverages and tobacco

In December 2023, the annual inflation rate for the Alcoholic beverages and tobacco category, which accounts for 12.6 percent of the consumer basket, increased by 8.4 percent compared to 4.2 percent registered in December 2022. The increase in the annual inflation rate for this category resulted from increases witnessed in both subcomponents.

Month-on-month, inflation rate for this category increased by 0.3 percent compared to 0.5 percent registered a month earlier.

Chart 9: Annual inflation rates (%) for Alcoholic beverages and tobacco (December 2022 – December 2023)

Annual inflation rate for Alcoholic beverages registered an increase of 8.8 percent in December 2023, compared to 4.5 percent recorded in December 2022. The main products which pushed up the inflation rate for this subcomponent were Sparkling wines/Champagnes (from -2.0% to 13.3%).

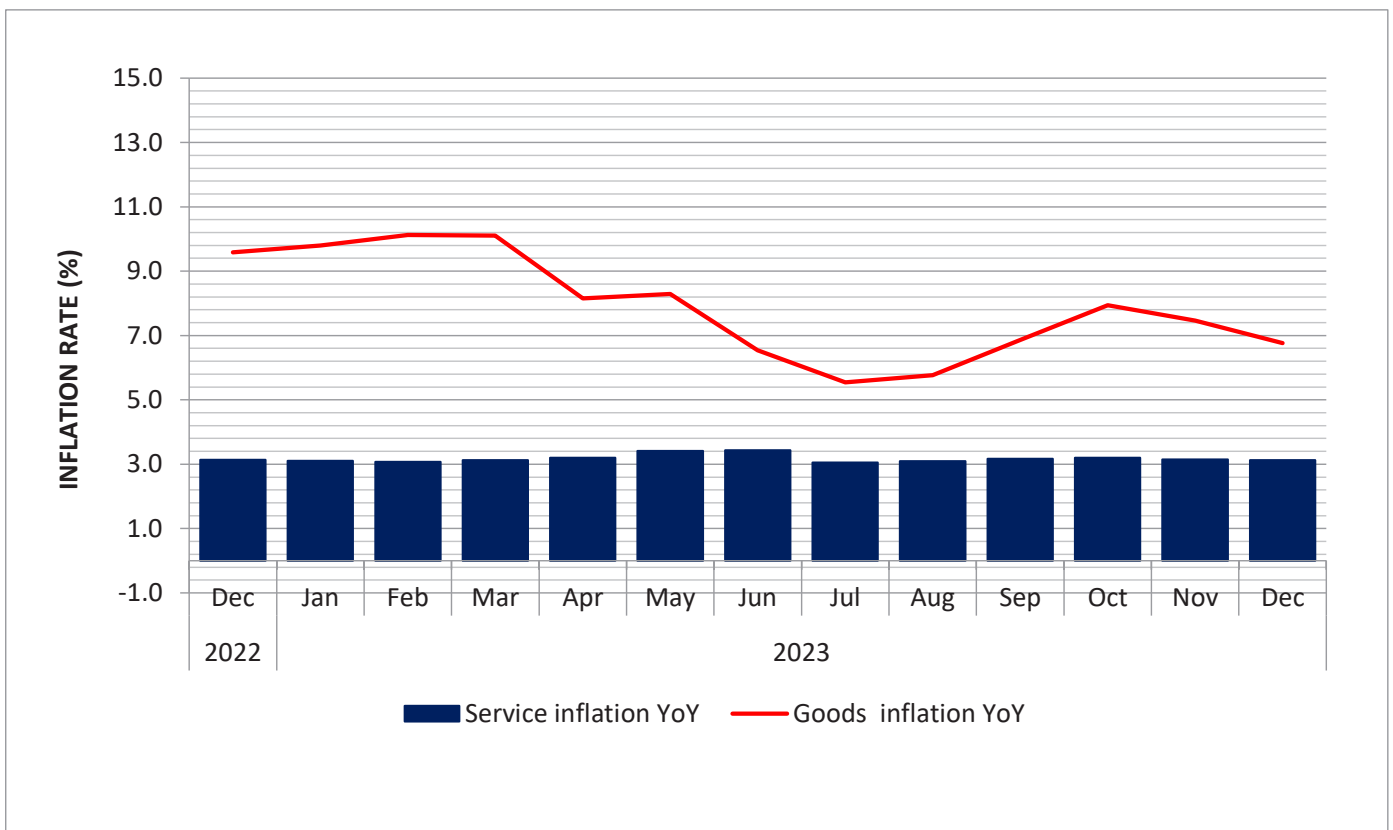

Annual inflation rate for Tobacco was estimated at 6.7 percent during the period under review compared to 2.9 percent recorded same period of 2022. The increase in the price levels for this subcategory was reflected in Pipe tobacco (from -3.3% to 11.2%).

Goods and Services inflation rates

Goods annual percentage changes stood at 6.8 percent in December 2023 compared to 9.6 percent witnessed a year ago, while annual inflation rate for Services stood at 3.1 percent in December 2023, unchanged when compared to 3.1 percent registered in December 2022.

Month-on-month, the inflation rates for Goods witnessed a deflation of 0.2 percent compared to 0.4 percent registered during November 2023, while the inflation rate for Services was estimated at 0.0 percent in December 2023, unchanged compared to a month earlier.

Chart 10: Goods and services annual inflation rates (%) (December 2022 – December 2023)

Inflation rates by Zones

The NCPI is designed to cover the entire economic territory of the country and includes national, urban, and rural households of all income groups as derived from the Namibia Household Income and Expenditure Survey (NHIES). For the compilation of the National CPI, all administrative regions of the country were grouped into three Zones, with each zone considered as one geographic area as follows: **Zone 1** (Kavango East, Kavango West, Kunene, Ohangwena, Omusati, Oshana, Oshikoto, Otjozondjupa, and Zambezi); **Zone 2** (Karas) and **Zone 3** (//Karas, Erongo, Hardap and Omaheke).

Table 1: Zonal annual inflation rates (%) – December 2022 – December 2023

	Zone 1	Zone 2	Zone 3
Dec-22	6.5	7.6	6.4
Jan -23	7.4	6.5	7.1
Feb - 23	7.6	6.7	7.3
Mar -23	7.7	6.6	7.2
Apr - 23	6.3	5.9	6.0
May -23	6.3	6.2	6.3
June -23	5.2	5.4	5.2
July - 23	4.7	4.6	4.2
Aug -23	5.3	4.5	4.0
Sep- 23	6.1	5.2	4.6
Oct - 23	6.6	5.7	5.6
Nov - 23	6.4	5.3	5.3
Dec - 23	5.9	5.0	4.9
An. Av	6.3	5.6	5.7

Zone 1 – The annual inflation rate stood at 5.9 percent during the period under review compared to 6.5 percent registered during December of the preceding year. The slowdown in the annual inflation rate emanated mainly from the slow increases registered in the price levels of Transport (from 13.9% to 4.5%); Food and non-alcoholic beverages (from 12.5% to 6.4%); Hotels cafes, and restaurants (from 5.7% to 2.4%) and Clothing and footwear (from 3.9% to 1.6%).

On a monthly basis, the inflation rate registered a decline of 0.2 percent compared to 0.3 percent recorded during the preceding month.

Zone 2 – Year-on-year inflation rate for the period under review stood at 5.0 percent, a slowdown when compared to 7.6 percent recorded during the same period of 2022. The slowdown emanated mainly from the price levels of Furnishing, household equipment and routine maintenance of the house (from 19.4% to 4.0%), Transport (from 15.3% to 4.1%), and Hotels, cafes, and restaurants (from 17.0% to 8.5%) and Food and non-alcoholic beverages (from 11.8% to 9.0%).

On a monthly basis, the inflation rate stood at 0.0 percent in December 2023 compared to 0.2 percent recorded during the prior month.

Zone 3 – The year-on-year inflation rate rose by 4.9 percent in December 2023, a slow down when compared to 6.4 percent recorded during same period last year. The slow growth in the annual inflation rate resulted mainly from the price levels of Transport (from 15.4% to 3.0%); Food and non-alcoholic beverages (from 10.3% to 7.5%); Education (from 7.0% to 4.1%) and Furnishing, household equipment and routine maintenance of the house (from 8.6% to 6.0%).

On a monthly basis, December 2023 recorded a deflation of 0.2 percent compared to 0.2 percent registered last month.

Zonal average prices on selected products

Table 2: Average prices in N\$ on selected products – December 2023

Item	Unit of measurement	Zone 1	Zone 2	Zone 3

Beef brisket	Per kg	89.40	108.85	104.17
Beer (local)	330ml	13.36	13.38	12.91
Petrol	Per litre	22.08	22.00	22.01
Diesel	Per litre	22.36	22.28	22.28

Box 2: NCPI basket weights

Inflation is calculated based on a basket of goods and services, containing a representative sample of the goods and or services commonly consumed in a country, and weighted in accordance with the relative percentage of expenditure allotted to each of the said goods at household level. The price of these goods and services are then tracked over time, to illustrate the change in the cost of living over time. As spending patterns change, new products and services are added to the basket, and the basket is reweighted to better capture the current spending patterns of the consumer at the current point in time.

As such, the inflation basket is generally reconstituted every five years. In Namibia, the basket was last rebased in 2013, using household expenditure data collected in the 2009/10 Household Income and Expenditure Survey. The basket now contains over 350 items, grouped into 12 categories and 55 sub-categories, for which prices are collected monthly from more than 900 retail outlets.

Namibian inflation is largely determined by three categories of the overall NCPI basket, namely: (i) Housing, water, electricity, gas, and other fuels, (ii) Food and non-alcoholic beverages and (iii) Transport, which cumulatively make up just under 60 percent of the total inflation basket. Additionally, following the rebasing of the NCPI basket in 2013, "Alcoholic beverages and tobacco" make up additional 12.6 percent of the basket, meaning that the four largest categories represent well over 70 percent of the total basket. As such, a large increase in inflation in these categories has a greater impact on the overall inflation than increases in the lower weighted categories. Thus, it is rare to see major increases in overall inflation attributed to the lower weighted categories, even though these categories may have seen relatively high inflation.

CATEGORY	WEIGHT %
Housing, Water, Electricity, Gas and Other Fuels	28.4
Food and Non-Alcoholic Beverages	16.5
Transport	14.3
Alcoholic Beverages and Tobacco	12.6
Furnishing, Household Equipment...	5.5
Miscellaneous Goods and Services	5.4
Communications	3.8
Education	3.7
Recreation and Culture	3.6
Clothing and Footwear	3.1
Health	2.0
Hotels, Cafés, and Restaurants	1.4

Box 3: Zonal NCPI weights

Inflation is calculated based on a basket of goods and services, containing a representative sample of the goods and or services commonly consumed in a country, and weighted in accordance with the relative percentage of expenditure allotted to each of the said goods at household level. The price of these goods and services are then tracked over time, to illustrate the change in the cost of living over time. As spending patterns change, new products and services are added to the basket, and the basket is reweighted to better capture the current spending patterns of the consumer at the current point in time.

As such, the inflation basket is generally reconstituted every five years. In Namibia, the basket was last rebased in 2013, using household expenditure data collected in the 2009/10 Household Income and Expenditure Survey. The basket now contains over 350 items, grouped into 12 categories and 55 sub-categories, for which prices are collected monthly from more than 900 retail outlets.

Namibian inflation is largely determined by three categories of the overall NCPI basket, namely: (i) Housing, water, electricity, gas, and other fuels, (ii) Food and non-alcoholic beverages and (iii) Transport, which cumulatively make up just under 60 percent of the total inflation basket. Additionally, following the rebasing of the NCPI basket in 2013, "Alcoholic beverages and tobacco" make up additional

12.6 percent of the basket, meaning that the four largest categories represent well over 70 percent of the total basket. Annex C: Background of the Zonal Consumer Price Index

The NCPI is designed to cover the entire economic territory of the country and includes national, urban and rural households of all income groups as derived from the Namibia Household Income and Expenditure Survey (NHIES). For the compilation of the National CPI, all administrative regions of the country were grouped into three Zones, with each zone considered as one geographic area as follows.

Zone 1 covers the expenditure patterns of the regions in the northern part of the country namely Kavango East, Kavango West, Kunene, Ohangwena, Omusati, Oshana, Oshikoto, Otjozondjupa and Zambezi. Prices are collected from the following towns: Katima Mulilo (76 retail outlets covering mainly the Central Business District); Oshakati (107 retail outlets covering mainly Game Shopping Center, Yetu Shopping Center, Oshana Mall, Marula Mall and Ongwediva); and Otjiwarongo (114 retail outlets covering mainly the Central Business District, Orwetoveni, and the Industrial Area).

Zone 2 covers the expenditure patterns of Khomas region, and the price collection covers Windhoek (218 retail outlets covering mainly Khomasdal, Katutura, Northern Industrial Area, Southern Industrial Area, Pioneers Park, Hochland Park, Prosperita, Klein Windhoek, Eros, and Kleine Kuppe).

Zone 3 covers the expenditure patterns of //Karas, Erongo, Hardap, and Omaheke regions with prices being collected from Keetmanshoop (86 retail outlets covering mainly Central Business District, West Dene and Tseiblagte); Swakopmund (108 retail outlets covering Central Business District, Mondesa, Tamariskia, Industrial Area); Mariental (61 retail outlets covering mainly Central Business District and Ombili); as well as Gobabis (59 retail outlets mainly covering the Central Business District), respectively.

The localities identified for price collection were selected based on a mixed criterion of:

- i. the relative importance of the locality as determined by its relative share exceeding 30 percent of the total household expenditure at national level.
- ii. geographic distribution of economic activities; and
- iii. Regional capitals.
